

TECH EHS Solution

“Ensuring Safety. Driving Innovation. Nurturing Sustainability”

Our safety commitment goes beyond boundaries, evolving with technological leaps to prevent and protect.

We Help to Innovate

We innovate new ideas blended with new technology for future-ready EHS Solutions.

We Help to Improve

We help to improve traditional EHS systems to increase efficiency and transparency.

We Include

We include diverse perspectives, professional resources, and digital tools for comprehensive EHS integration.

We Help to Implement

We help in developing, reviewing, and implementing on-site safety systems, conducting gap analysis and training for seamless improvement.

About TECH EHS

- ✓ TECH EHS founded by industry veterans having a sizeable EHS management experience, assisted by large pool of EHS Professionals
- ✓ An ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 Certified Firm, serving industries since last 17 years
- ✓ Human resource pool of over 150 Professionals behind the outstanding success of every project delivery at TECH EHS
- ✓ In-house division employs services of both software and multi-media Professionals, aims to deliver effective and affordable EHS outcomes with the usage of modern technologies
- ✓ Complete ownership of all EHS undertaking - throughout the project life cycle (Construction, commissioning, operations and shut down phases) across diverse industries
- ✓ Equipped with an innovative and technological approach, to tremendously bring benefits in the EHS field.

600+

Clients Worldwide

1000+

Successful Projects

150+

Skilled Professionals

17+

Years in EHS Industry

Industries we serve

- ✓ Construction Projects
- ✓ Oil and Gas
- ✓ On/Offshore Operations
- ✓ Petrochemical and LNG
- ✓ Cement Industries
- ✓ Power Sectors
- ✓ Steel Plants
- ✓ Mining and Metal
- ✓ Chemical
- ✓ Pharmaceuticals
- ✓ Fertilizer
- ✓ Consumer Goods
- ✓ Public Utilities
- ✓ Ports

Highlights

- ✓ Led successful safety consulting initiatives, involving the meticulous development of Plans, Procedures/SOP, Safety Maturity Survey & Gap analysis, and the execution of Site/Plant Inspection & Compliance audits across **100+** diverse industries.
- ✓ Conducted **1000+ training** programs on 50+ various technical subjects such as scaffolding, work at height, material handling, rigging & lifting, BBS, confined space entry, defensive driving, and more
- ✓ Implemented EHS Management Custom software solutions across **30+ countries and 300+ plants/sites**, with a user base of over **50,000+** active users.
- ✓ Executed over **1000+ Projects** of 3D safety animation movies utilized for training and awareness purposes.
- ✓ **40+ eLearning** courses developed on various safety subjects, covering a wide range of technical subjects.
- ✓ With a global reach spanning over **30 countries**, we proudly serve **600+ clients**, delivering cutting-edge EHS management Software, impactful 3D Animations, and comprehensive eLearning solutions across a spectrum of technical subjects

The background of the slide features a photograph of several construction workers from behind, wearing white hard hats and dark work shirts. The image is overlaid with a semi-transparent blue filter. The text 'EHS CONSULTING' is centered in a large, white, bold, sans-serif font.

EHS CONSULTING

An important re-engineering principle is that companies should focus on their core competence and outsource everything else.

- Bill Gates

Manpower Staffing Solutions

EHS Manpower Solutions play an important role in maintaining and improving EHS practices in the organization. EHS manpower supply becomes an important task for industries to strike at and get satisfactorily solved to maintain its integrity, functioning, legal conformance, reputation among the stakeholders, high morale and industrial relations and also productivity, profitability and market value.

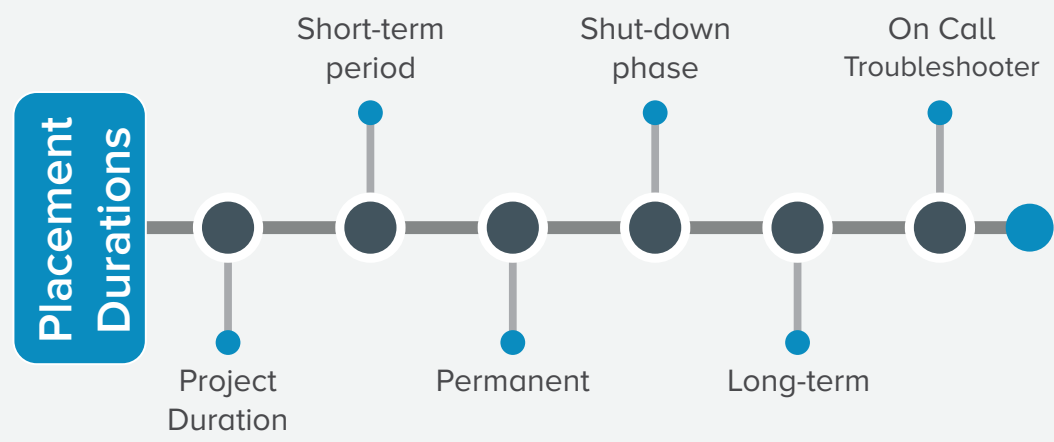

TECH EHS, an integrated EHS service provider with rich EHS knowledge, prides itself in being the only organization in India, which is exclusively dedicated to recruiting EHS professionals for Safety Jobs across the India. We meet safety manpower supply at all the levels of management, from Stewards to Safety Head for all industries. We have in-house bouquet of knowledgeable and experienced Indian & other nationality safety professionals to be counted on, additionally we have a database of more than 1,00,000 qualified personal. We have built an impressive track record and earned a reputation for safety services you can rely on.

We have a dedicated research team, equipped with a comprehensive database repository, which effectively meets the challenge of matching a client's needs with the candidate's unique capabilities.

Get rid of all the recruitment processes

- ✓ Organizing Interviews
- ✓ Scrutinizing & selecting suitable candidate by EHS professionals as per client's job requirements
- ✓ As EHS technical specialists, we provide need based training to all the candidates, who are working or are associated with us

Introduction

EHS professionals need a unique and diversified type of knowledge and training to meet the challenges of the complex and hazardous nature of industries. Enhancing the quality of industrial manpower, particularly in the field of EHS, is a pains-taking and skilful task needing expertise, Infrastructure and resources. Quality, Professionalism and Competence are the practical needs of the hour in this vital field of EHS.

We, at TECH EHS, stand for building quality, instilling professionalism and creating competence in our endeavour to develop EHS cadre with an elaborate and comprehensive training packages-aiming at moulding behaviour of EHS personnel

- Highly professional EHS team, developing training modules to meet industries' needs
- In-house Graphics and Instructional Designing Team to develop interactive and effective training programs
- Supported by in-house 3D Animation Studio
- Team of in-house Trainers and External Specialists
- National and International (multiple language) training modules and trainers availability

Glimpse of our Successful Achievements

Cairn India Ltd
Mines Vocational Training

All oil & gas companies are required to adhere to the OPITO standards for undergoing IMIS Training as per the Mines Vocational Act. We at TECH EHS also initiated the same as a part of our training syllabus.

TECH EHS has been rewarded with 3 years contract for providing IMIS Training.

The aim of the Mines Vocational Training is to make the employees aware of the key safety elements of the oil and gas industry.

- Customized IMIS Training module prepared based on the OPITO standards (UK)
- TECH EHS has been providing Mines Vocational Training to Cairn India Ltd. at 3 of their locations (MPT, Bhagyom and RGT) with approx. 8 to 15 training days every month.
- Till date successfully delivered over 30 batches of Mines Vocation Training,

OPGC & AES (Jharsuguda, Odisha)
HSE Initial Basic Training

TECH EHS was awarded a contract for providing Health, Safety and Environment Initial Basic Training for Odisha Power Generation Corporation at Jharsuguda, Odisha.

During the tenure of the contract, TECH EHS has successfully delivered over 500 training covering the detailed requirement for the Health, Safety and Environmental issues at Thermal Power Plant

The training program was customized as per local and regional needs.

- Training modules and materials prepared in English, Hindi and Odiya languages
- Successfully trained over 18000 participants
- Overall improvement in safety culture achieved

PROJECT EHS

Management Outsourcing - A Complete Ownership

The concept is based on recognized practice of new ages where specialist services are outsourced to organizations with excellence in that particular field. Its based on an age old saying, "Why Re-Invent the Wheel"

TECH EHS introduced this concept a decade ago in which we help you understand your EHS requirements, outline on effective EHS System and implement the system which is Healthier, Safer and Environment Friendly

We Have the Capability and Resources

Over a decade we have accumulated special expertise and developed technologies in EHS. The inhouse think tank of personals from various business sectors enables us to provide effective Management Guidance in different sectors, The Inhouse ground force helps in Implementation and TECH EHS technological solutions brings a futuristic advancement to the overall package.

What we Bring to the Table

- ✔ EHS expertise and innovative technologies
- ✔ Experiences and learning from previous implementation
- ✔ Think tank of qualified and experience personnel from various business sectors
- ✔ Backed by Software technologies, animated training & eLearning
- ✔ Supported by fully functional training division.
- ✔ Supported by well resource EHS Manpower resourcing division
- ✔ A trouble-shooter for unforeseen requirements
- ✔ A complete EHS Management as per client/owner

Major Clients

- ✔ Hooker Cockrom Corporation Pvt. Ltd.
- ✔ Indian Oil Tanking Limited
- ✔ Larsen & Toubro Limited
- ✔ Siemens Limited
- ✔ Simplex Infrastructure Limited

What Can We Do

- ✔ Help you identify EHS requirement, Legal & Practical
- ✔ Outline a custom made EHS Guideline
- ✔ HSE Plans, Procedures, Safety Operating Procedures
- ✔ Hazid, Hazop, HIRA
- ✔ Identify your Training needs
- ✔ Training Deliveries
- ✔ Procedural Audits and Gap Analysis
- ✔ Technological advancement for Data Collection and Analytics

L&T (For their project in Hazira, Surat - Gujarat)

- ✔ Over 50 highly knowledgeable and experienced HSE professionals deployed for the project duration (3 years)
- ✔ High Safety performance, service excellence and seamless execution of plans
- ✔ Integrated HSE management through on-site deployment of personnel backed up by leadership from TECH EHS' office
- ✔ Comprehensive workmen management, improvement in safety culture and contingencies for emergencies
- ✔ Ensuring workmen securities through meeting of compliance and regulatory requirements, accommodation and travel facilities, legal procedures and others

Major Projects Completed

Hooker Cockram (For Pfizer project in Navi Mumbai, Maharashtra)

- ✔ Over 150 highly knowledgeable and experienced HSE professionals along with scaffolding and technical professionals deployed for the entire project duration (2 ½ years)
- ✔ High Safety performance, service excellence and seamless execution of plans in tough terrains and challenging work environments
- ✔ Integrated HSE management through on-site deployment of personnel backed up by leadership from TECH EHS' office
- ✔ Safety software, safety animation movies and other technical tools utilized for the entire duration of the project
- ✔ Comprehensive workmen management, improvement in safety culture and contingencies for emergencies

EHS

Audits & Compliance

Track correction, to be on the right path, and continual improvements in systems are the crux of success in any business. Assessments and audits by an independent third party show to the organizations where the gaps lie and how to overcome them, with further improvement measures. EHS is a specialist's and legal domain.

TECH EHS provides an expert's EHS audit and assessment services to the clients to bring out the deviations and non-compliances with respect to the regulatory requirements, national/international standards of repute, world's best practices and suggest practical solutions in line with their internal policies and procedures.

- ✔ Workplace Audit as per IS 14489:1998 and requirements given by company/industry.
- ✔ National & International standards / specifications such as ISO 45001:2018, EMS 14001, OSHA, OISD, EN...etc.
- ✔ A general EHS audit aiming improvement at project site or in industry.
- ✔ A specific audit in case any contractor/agency is unable to cope-up and match with the client's/owner's system.
- ✔ A special audit in case of any major mishap, disaster or catastrophe.
- ✔ Fire risk assessment as per Factories Act, 1948 and other relevant laws.

Milestones

Industries in India and overseas have immensely benefited with TECH EHS' Audits and Assessments services in EHS domain which has helped them tide over, not only the statutory needs, but also solved their operational and project problems.

The important EHS services have laid milestones since past decade for several reputed multi nationals as appearing in the list of clientele.

- ✔ Our detailed Feasibility Study/Audit Report helped Essar Steel Plant at Hazira for implementation of Lock-out, Tag- out & Try - out system.
- ✔ Conducted third party audit of General Motors plants in India at Pune and their centre at Bangalore along with their American Principals.
- ✔ Oil & Gas Extraction units of M/S Cairn India Ltd. at Barmer, Rajasthan was audited in detail by TECH EHS which resulted in improvement of EHS Standards.

Development

Plans & Procedures

We work in close co-operation with the site-team especially to develop SOP (Standard Operating Procedure) along with the complete EHS Management System. Additionally we assist you with:

- ✔ Setting up your EHS policy & Safety operating procedures
- ✔ Determining site's specific Environmental, Health and Safety risks
- ✔ Risk ranking and assessment of impact to Occupational Health & Safety
- ✔ Pro-active and preventive preparation of Safety plans as well as safety procedures
- ✔ Post-occurrence arrangements: Design emergency procedure
- ✔ Emergency preparedness: Design emergency plans

We facilitate the implementation of the system with the following:

- ✔ Partner the site maintenance team to develop SOP for controlling the EHS risks (specifically construction SOP)
- ✔ Training your staff to implement these procedures
- ✔ Setting objectives to meet your contractual & ongoing improvement commitments.
- ✔ Assist the team to develop EHS procedures which will meet the set objectives
- ✔ Develop and implement an efficient plus cost-effective software system for documentation & control

Milestones

After pronouncing EHS policy of the organization, the next logical important step to implement the policy is to check out EHS Plans and procedures. TECH EHS has made significant contributions to the needy industrial organizations including multinationals of repute, to study their plant / project areas and recommend suitable and best available modules as to how to go ahead, plan in detail, draft commensurate procedures , along with training the concerned people to implement them in phases so that they stay effective to tone- up the prevalent work-force , supervisory staff, their physical installations including the statutory and mandatory provisions being fulfilled.

Testimonials

In my dealings with TECH EHS I've found them to be very capable of assisting in our needs for program development and were very timely and professional. When issues arise they help determine the issue and quickly implement a fix and solve the problem. The service is always prompt and professional and the quality of the product has helped us improve our scaffolding field operations by being more efficient in planning, execution and reporting,

Jeremy Bock (Group Head - Services)
KIEWIT CORPORATION (USA)

TECH EHS has been a great partner in accelerating and elevating our EHS journey. With "a click of a finger," the platform could retrieve and present any useful information or data. Additionally, the mobile application provided ease of use for anyone to record any incident or observations for further investigations instantly. Their expertise and commitment to our needs have been evident in delivering solutions through the software and support rendered. We appreciate their continuous efforts to improve the software and adapt to our evolving needs.

Rajesh Bhat K.P (Asst. Vice President, BizTech Services)
Natsteel Holdings Pte Ltd

Milestones

- We have deployed Scaffolding Management software for world's largest Construction & Manufacturing company. This software automates and manages their scaffold request/approval process, production planning, inspection process, material inventory and also generates KPIs, Graph & Report for team productivity & efficiency, material planning, Time against Productivity, calculate productive/nonproductive hours.
- Our Semi-ERP environment, health & safety management system smoothly integrates with Mobile Apps and helps on-field operations, regulates all EHS operations (Incident/near-miss, Audit, Site Inspections, Training, BBS, Action item tracking, etc..) processes the data into information systems providing swift analytics and KPIs with lead & lag indicators of their plants, region & corporate level for industries like pharmaceutical, chemical, telecommunications, automobile sector.
- Permit to Work software - assists in reducing significant permit approval time by automating simple to most complex approval workflow.
- ID Badging System for Contractor Labour Management on turnkey basis for many PMC & Owner companies during their mega project's construction and commissioning phase.
- We have 50000+ active users of our various Mobile Apps, allowing them to monitor on-field activities like Incident/Near-miss reporting, BBS Observation, Site Inspection, Audit, Safety Equipment Inspection, Permit to Work & Scaffolding Operation.

EHS

Animation Movies

We, TECH EHS have an in-house Animation studio. The combination of creative animation development expertise and the main stream of vast and practical work experience of EHS; bringing out on amazing, result oriented EHS videos. TECH EHS' EHS Experts are involved right from the conceptual phase, including detailed study of requirement, client procedures / policies, analysis of purpose and key areas to be highlighted to achieve the target

A qualified team of functional Analysts (combining expertise of EHS domain and creative script writers), Photographer. Modelers, Animators, Sketcher, Editors and Narrator take-up assignment & development

One of the tried and tested methods to share such information is by using 3 dimensional animation movies, recreating the accident scenario to an exact.

Induction (Employee / Contractor / Visitor)

As mandated by the Factories Act, it's imperative for every employer to ensure their workforce is well-versed in site hazards and preventive measures. Embrace your responsibility as an employer and lead the way in fostering a safe workplace environment through engaging safety animations designed to maximize retention.

Incident/Near Miss Recreation

Effective methods for recreating accidents, incidents, or near misses to educate your workforce and raise awareness.

Technical Training

It is paramount to ensure that every employee is well-equipped to navigate the specific hazards associated with their tasks. From excavation safety to chemical handling protocols, each technical subject demands a thorough understanding and adherence to established safety measures.

Critical Safety Guidelines (Life saving Or Golden Rules)

Critical Safety Guidelines, also known as Life-saving, Golden, or Cardinal Safety Rules, is essential for preventing accidents and protecting lives. Uniformly create standard protocols to be followed by every plant and project site.

Standard Operating Procedure

Our Standard Operating Procedure (SOP) animated movie serves as a powerful instructional resource, empowering employees to perform tasks confidently and efficiently, leading to high-quality outputs and enhanced operational performance.

Engineering Process

Understanding the intricacies of equipment and its operational procedures is essential for optimal performance and safety. Our Equipment Design and Engineering Process Animation offers a dynamic and immersive solution, allowing viewers to delve deep into the inner workings of machinery and processes.

Social Impact

Our Corporate Social Responsibility (CSR) and Social Impact animation movie serves as a powerful storytelling tool, enabling organizations to effectively convey their dedication to social responsibility and showcase the tangible difference they are making in communities around the world.

Corporate Branding

In the dynamic landscape of corporate innovation and growth, effectively presenting and pitching new concepts to investors and internal stakeholders is paramount for success. Our Corporate Branding & Concept Branding animated movie offers a dynamic and engaging solution tailored specifically for this purpose.

Plant/Facility Walkthrough

Navigating the complexities of a plant or facility can be challenging. Our Plant/Facility Walkthrough animation offers a dynamic and immersive solution to guide viewers through the various areas and processes of your plant or facility.

HR Onboarding

Our HR Onboarding Animation Movie offers a seamless and engaging solution to streamline the onboarding process and welcome new hires into your organization.

- In-house 3D Animation & Sound Studio
- Creative team of **50+** team members having Directors, Instructional Designers, Script/Contents Writers, Modeler's, Animators, Editors and Game Developers.
- **National and International language** movie development capability
- Separate wing for development of **e-Learning Modules**

Testimonials

➤ We sincerely appreciate the exceptional video you chartered for our investors. Your ability to conceptualize and deliver such a compelling narrative in a remarkably short timeframe is nothing short of impressive. Our senior team was very pleased with your work quality, and it did not go unnoticed that you exceeded our expectations. Your dedication to your craft and commitment to excellence were evident in every video frame. Thank you once again for your outstanding contribution. We look forward to the possibility of working together again.

Gaurav Pathak (Associate Manager – CEO)
Adani Airport Holdings Limited.

➤ Thanks for your support throughout the project phase of the animated video-making process. One of the driving factors in our decision to choose you was the quality of the video animation work you have done previously with one of our JV partners. Your knowledge of EHS is commendable. Thank you for leading the project, accommodating every single request in a professional manner, and being patient with all our requests and changes to be embedded in a timely manner to achieve what we want. You are truly a team full of professionalism and result orientation!

JIGPC (Jazan Integrated Gasification and Power Company)

Milestones

- ✓ Developed SOP videos, demonstrating critical processes for various industries such as oil & gas, pharmaceutical, steel plants and many more.
- ✓ Successfully developed Employee Orientation Program of varied durations for Aditya Birla group of companies, Vedanta group of companies, Reliance group of companies, Adani group, Essar group of companies etc.
- ✓ Helped in reducing the re-occurrence of Incidents by developing accident/incident scenario's for automobile industry, operational plants, construction industry, Oil & Gas industries
- ✓ Delivered various HSE training capsules in the form of E-Learning complete package with critical thinking based question for assessment and engaging interactivity. So far we have delivered E-Learning packages for Ultratech, Sun Edison, Vodafone and many more.

Culture at TECH EHS

what CLIENTS say...

TECH EHS' services have been beneficial and helped to lift the standard of Safety within our organization, by making personnel aware of various establishments in different countries, about the near misses or accidents. using the medium of Animation.

 **Phil Kinney** (Corporate Safety Head)
GLOBAL RISK IMPROVEMENTS, GKN GROUP COMPANIES

CGPL Mundra is first UMPP of 4000 MW which nos been commissioned in the shortest duration of one year and "permit to work system" was one of the challenge for safe work culture. This tailor-made soft based EPTW system which could be developed as per the organization safety guidelines has provided us ultimate solution. We had hesitation to go for this system os solid consistence maintenance support was a major reservation however we got an excellent and prompt support from M/S TECH EHS engineers throughout the journey. This system has exhibited all essential feature of company safety guidelines and hence this system can be established in other division of the company.
We are thankful to M/S TECH EHS for their excellent services throughout development and stabilization process of this system.

 **Umesh Likhite** (Group Head - Operations)
COASTAL GUJARAT POWER LIMITED (DATA POWER COMPANY)

Reliance Project Management Group (RPMG) deploy a blend of skilled, semi-skilled and novice hands and we needed to obtain additional qualified, experienced and competent EHS Engineers and Trainers to support our construction activities.
We contacted a number of agencies. After making them aware of our requirements and the skill-set needed, we provided an overview of activities. and in-house facilities available on site. Subsequently, we engaged TECH EHS Solution in Surat to provide manpower solutions because they were able to show that they had an understanding of our requirements and, they proposed personnel whose areas of expertise and qualifications matched our needs.
We set HSE objectives and targets that include improvements in the safety awareness of our workforce and confidence level s of our supervisory cadre. We thank TECH EHS for assisting us in achieving our aims, they engaged personnel who blended in with our HSE team, and we appreciate the combined team and Individual efforts and thank them as well

 **Anthony Rawson** (HOD-HSE)
Reliance Industries Limited - Dahej

For the service part, we appreciate your work, also you have created a virtual world for learning and communicating safety in form of animation

 **Gagandeep Ojha** (In Charge)
BALCO FIRE SERVICES

One of the advantages of awarding the contract to TECH EHS is that they have expertise in the field and they are easily able to understand our requirements with very minimal consultation. It would be easy for us to roll out the projects within the stipulated time. We have partnered with TECH EHS for many animation projects, software project and continue to use their services to this day. The net result of our association has been very fruitful and productive. Keep it up TECH EHS!

 **Suresh R. Penmatso** (Vice President-Corporate EHS)
USV india Limited, India

On behalf of entire team (Battery # 10,11 & New BPP), I would like to congratulate you on successfully completing daily project work (2015-2016) and providing a wonderful presentation of the same.
It's all because of the dedication and hard work of you and your team that our department could complete scheduled and challenging works in time with successfully & Safety for the year'
I am aware that there are days you all have spent long working hour's and overtime just to finish the project.
I feel proud that I have such a wonderful team and you have leaded the team in the right direction.
We sincerely appreciate your role in the success and wish that you would keep up the good work in future too..

 **Swati P Minj** (Manager)
Coke Plant (Battery # 10-11)-Tata Steel Ltd., Jamshedpur

Vijay Tanks & Vessels (P) Ltd is engaged with TECH EHS Solution, and I would like to take privilege to thank TECH EHS to train our safety personnel. Their training agendas are well customized, which incorporates the specific needs and purposes of Vijay Tanks & Vessels (P) Ltd. Vijay Tanks & Vessels (P) Ltd look forward to work with TECH EHS on continues bases

 **Praveen Kumar** (EHS Manager)
Vijay Tanks & Vessels Pvt. Ltd.

The work done by TECH EHS to understand, plan and execute the final video is highly appreciable and executed fast. The outcome of this is that the video con even be understood by laymen. This will go a long way to make many people understand safety in simple way and prevent incidents and hence well-being of one and all
